AMT® 885

Adaptive Motion Trainer® with Open Stride™

Like every piece of equipment in our Experience Series™ 880 Line, the AMT® 885 with Open Stride™ combines essential reliability and ease-of-use with smooth, flowing and precise motion to add value to your facility. With a touch screen console, and a simple, intuitive interface that draws users deeper into their workout, the P80 console on the AMT® 885 is a fitness solution that gets more powerful the longer you own it.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services and technologies we offer can be combined in countless ways to complement the programs, and atmosphere you're creating.

P80 Console

Optional reading rack attaches easily to the P80 console.

Our new Adaptive Motion Trainer[®] — AMT[®] 885 with Open Stride[™] creates a whole new feeling during a workout. Savvy operators immediately see the benefits of a machine that enables exercisers of all levels to personalize their workouts and keep them engaged, challenged and loyal. The AMT[®] 885 will take the pressure off your other equipment by delivering a range of motions similar to what they offer, making it the hardest working piece of cardio equipment in your facility, and the easiest, most enjoyable to use.

PRODUCT HIGHLIGHTS

- 1 Console**
The P80 console is as easy for exercisers as using their smart phone. A touch, a swipe, a gesture and they are experiencing a new intuitive level of personalized workout. This simple interface puts control into the hands of users so they stay connected to the experience and your facility.
- 2 Open Stride[™]**
Open Stride[™] is a unique feature that allows exercisers not only to dynamically adapt their stride length from zero to 36 inches (0 to 91 cm) but also to adjust their stride height from 6.8 to 10 inches (17 to 25 cm) providing an infinite range of stride paths to engage several muscle groups. Open Stride[™] can be adjusted from level 1 to 5 with the tactile motion controls.
- 3 Handlebars Fit Everyone**
Three distinct positions on the moving handlebars provide a comfortable fit for nearly every user. The rodeo grip has a heart rate sensor built-in that provides monitoring and a stable, comfortable position when focusing on the lower body.
- 4 Total Body Workout in One Piece of Equipment**
Users can go from short stride to long stride, walking to running, climbing to lunging, allowing them to target different muscle groups. Pushing and pulling the moving handlebars will engage the upper body, resulting in a total body workout.
