

EXPERIENCE™ SERIES
880 Line

POWERFUL TOUCH

The 880 Line features a touch screen console and intuitive interface that gets more powerful the longer you own it.

TRM 885

Treadmill

Like every piece of equipment in our Experience Series 880 Line, the TRM 885 treadmill adds value to your facility by combining essential reliability and ease-of-use with a feeling that's personalized to every step. With a touch screen console, and a simple, intuitive interface that draws users deeper into their workout, the P80 console on the TRM® 885 is a fitness solution that gets more powerful the longer you own it.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services and technologies we offer can be combined in countless ways to complement the programs, and atmosphere you're creating.

TRM 885

Treadmill

EXPERIENCE™ SERIES
880 Line

The TRM 885 is a top of the line treadmill that combines thoughtful design and performance to deliver an exerciser experience that feels right. Our TRM 885 makes it easier for you to provide a customer-focused environment. Quiet and efficient, we've streamlined the assembly and included diagnostic tools to increase uptime and keeps operating costs down.

PRODUCT HIGHLIGHTS

- 1 Console**
With a touch screen console just like a high-end phone, and a simple, intuitive interface that draws users deeper into their workout, the P80 console is a reliable fitness solution that gets more powerful the longer you own it.
- 2 Power Factor Correction (PFC)**
Our highly efficient 4 HP AC motor drives are optimized with PFC for increased efficiency, improved performance and up to 30% reduction in energy consumption.
- 3 Integrated Footplant Technology™**
Recognizes exercisers natural foot speeds and matches every stride for an ultra-smooth feel that enhances their workout experience.
- 4 Ground Effects® Impact Control System**
Our patented system combines ideal cushioning, support, and stability for exercisers. Precor decks are designed to provide more absorption in the front where exercisers feet hit the belt and added rigidity at the back for a firm-push off.
- 5 Active Status Light**
To increase up-time an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.
