

SPINNER® Rally[™]

1 Flywheel

43 lb. perimeter weighted flywheel provides a superior ride feel whether you select the true to our roots chain drive or the quieter smoother belt drive system.

2 Aluminum Frame

The all aluminum frame features rounded tubing to shed sweat and stamped elements for improved ride stiffness while offering the best corrosion resistance.

3 Durability

Durability is improved by the oversized cranks and the patented Morse taper pedal and bottom bracket interface.

4 Adjustments

Micro-adjust fore-aft seat and handle bar adjustments, height adjustments and oversized asymmetric pop-pin knobs provide an easy-to-use and personalized fit for riders of all sizes.

Rear Stabilizer

Thoughtful design elements, like rear stabilizer covers that protect from exerciser's cleats when stretching and nylon levelling feet, make the Spinner® Rally rust resistant and easier to own.

CONSOLE

The easy-to-read Spinning® Studio console can be added to any model of Spinner® bikes. The latest Spinning® console technology will automatically pair with any ANT+™ compatible heart rate monitor and also features low power consumption, a large backlit display, and code memory during battery replacement.

READOUT INCLUDES:

- · Cadence (Pedal RPM)
- Heart Rate/Pulse
- Time
- Distance
