

SMALL 3" X 1.5" X 0.74"

## CAB - CONSOLE ADAPTER BOX

Control any set top box located next to or away from our ENT Models.

CT850 ENT

CE/CR/CU800 ENT

## FEATURES

- Control any Cable, Satellite, or IPTV set top box, including set top boxes from Pro:Idiom® and Verimatrix™ decryption.
- Allows you to use our integrated console touchscreen buttons to control set top boxes.
- Attaches easily to the back of the console. Plugs directly into our C-safe port.
- Eliminates the hand held battery operated remote control provided by the cable, satellite, IPTV provider.
- Cable, Satellite, IPTV set top boxes can be located at our cardio unit or far away.
- The CAB is plug-n-play and does not need to learn IR (Infrared) commands. Unlike some wireless devices that need to learn IR commands in the field, the CAB is preprogrammed prior to shipping and can be easily updated onsite.
- Keeps the set top boxes awake so they don't go into sleep mode.
- The CAB is the market leader in providing cardio entertainment control of set top boxes. Unlike costly, overly complicated wireless RF (Radio Frequency) systems, the CAB is a simple, cost-effective, plug-n-play solution.
