

TRM 885 Treadmill EXPERIENCE™ SERIES

Like every piece of equipment in our Experience Series 880 Line, the TRM 885 adds value to your facility by combining essential reliability and ease-of-use with a feeling that's personalized to every step. Thoughtful design and performance deliver an exerciser experience that feels natural. The TRM 885 makes it easier for you to provide a customer-focused environment. Quiet and efficient, we've streamlined the assembly and included diagnostic tools to increase uptime and keep operating costs down.

The clean and proven design of the P82 touch screen console makes it easy for exercisers, whether new to Precor or familiar, to locate controls, inputs, and adjustments. The user interface delivers touch screen responsiveness to swipes and selections as exercisers enjoy an uninterrupted workout experience.

At Precor, we recognize that a great workout is the sum of many parts. In your hands, the products, services, and technologies we offer can be combined in countless ways to complement the programs and atmosphere you're creating.

TRM 885 Treadmill

EXPERIENCE™ SERIES

Product Features

1. Console

The P82 console not only offers a brilliant 15 in / 38.1 cm screen that's ergonomically positioned to deliver crystal-clear entertainment viewing for exercisers in motion, but when networked, is also a direct-to-exerciser communication portal allowing you an opportunity to build your brand, share information about activities and services, and strengthen the sense of community within your facility.

2. Power Factor Correction (PFC)

The highly-efficient 4 HP AC motor drives are optimized with PFC for increased efficiency, improved performance, and reduced energy consumption by up to 30%.

3. Integrated Footplant Technology™

Integrated Footplant Technology recognizes the exerciser's natural foot speed and matches every stride for an ultra-smooth feel that enhances the workout experience.

4. Ground Effects® Impact Control System

This patented GFX system combines ideal cushioning, support, and stability for exercisers. Precor treadmill decks are designed to absorb more impact in the front where exercisers' feet hit the belt. Added rigidity at the back of the belt allows for a firm push-off.

5. Active Status Light

To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.

Refined colorways with dark Tungsten covers and two frame color options.
