PROPERTY	DESCRIPTION
Primary/Stalk Yarn Polymer	52% Polyethylene
Secondary/Thatch Yarn Polymer	48% Nylon
Yarn Cross Section	Polyethylene Slit-Film/Texturized Nylon
Standard Colors	Green, Red, Blue, Silver, Black, White, Tan, Orange, Scarlet
UV Stabilized	Yes
Fabric Construction	Tufted
Primary Backing	Dual layered Woven
Coating Type(s)	Proprietary Polyurethane or 5mm Polyurethane Foam w/fleece
Perforations	Custom only
Recommended Infill	N/A
Pile Height	3/4"
Pile Weight	40 oz.
Fabric Width	12' (Green Available in 12' & 15')

APPLICATION

Shok-TurfX is a premium indoor fitness solution that is built to hold up to the abuse that functional training puts on a surface. It has a high resiliency to slamming, jumping and sled pulling while also being nonabrasive and very comfortable for ground based activities and high traction for sure footedness. Velcro can be added for temporary installations and zero infill is required.

MORE PRODUCT INFO

Full range of markings and logos can be inlaid with a full spectrum of colors replacing the need to paint and repaint markings over the life of the surface. Shok-TurfX will also hold up to outdoor installations on solid concrete and asphalt bases with drainage considerations in place. No infill means easier maintenance and up to 10% cooler outdoors.
