

# X1 GLADIUS ALL-IN-ONE STRENGTH TRAINER

Optional Vertical Leg Press

Included Attachments

## PRODUCT FEATURES

The Legion LS-X1 Gladius All -In-One Fitness Trainer combines both plate loaded and pin loaded weights, and features a 1:2 Cable Pulley Ratio. The counter balanced Smith Machine counteracts the weight of the bar, so the weight you lift is based on the weight of the bumper plates you load.

Plate Weights (not included) - are used on both the Smith and Power Rack stations, and can be easily loaded. Perfect for where space is limited!

Includes Multi-Grip Chin Up Bar, 2x200 weight stacks, J-Hooks, Land Mine, Functional Training Bar, Lat Pulldown Bar, Nylon Stirrup Handles, Suspension Training Ring, Safety Spotter Arms, and more! And, the LS-X1 also accepts the optional LS-X1VLP Vertical Leg Press for additional lower body workout flexibility.
