

# LEG EXTENSION PLS-1200

The Palladium Series Plate Loaded PLS-1200 Leg Extension is designed for seamless movement and user comfort. Its off-axis pivot allows for natural knee placement without requiring alignment to a fixed point, while the self-adjusting shin pad eliminates unnecessary adjustments. A gas-assisted, six-position seat back ensures smooth and stable positioning.

## FEATURES

- Unique off-axis pivot design allows users to place knees freely on pad without need to align with fixed pivot
- Self-adjusting shin pad removes need for additional adjustment
- 6-position seat uses gas cylinder assist for stable, friction-free adjustments

ADJUSTMENT GUIDE		
HEIGHT	METRIC	SEAT
